

Track Record Global

Track Record Global enables its clients to manage risk with transparent, consistent and verifiable ESG data mapped throughout their supply chains.

We are specialists in compiling the evidence of ESG compliance working with over 40 global businesses (including DFS, Dreams, Sofology & Sainsbury's) and over 4000 suppliers in over 50 countries. Our unique and proven due diligence methodology has been developed over 15 years.

Our web-based systems map supply chains and maintain product technical files. Our expert staff can identify the required documentary evidence needed from suppliers to mitigate ESG risk. Working with TRG our clients meet all legal, health and safety responsibilities, and public ESG commitments.

Our services include

- Product Technical File - Managing Product Compliance Documentation
- Supply chain due diligence including
 - Timber (FSC, PEFC, UKTR, EUTR, Lacey Act, ILPA)
 - Cotton
 - Recycled Plastic Claims
 - Animal Welfare and Leather
 - Modern Slavery
 - Palm Oil (RSPO Certification)
